

БЪЛГАРСКА АСОЦИАЦИЯ ПО ОБЩЕСТВЕНО ЗДРАВЕ

Регистрирани участия в Третата Европейска седмица по общественно здраве 17-21 май 2021 г.

Общо – 42 събития

Понеделник 17 май - Communicating science and health

Основна тема на деня: Споделяне на научни знания за здравето

Предаването на точни и достъпни здравни знания има изключително значение за промоцията на здравето, особено по време на криза. По какъв начин можем по-добре да предаваме комплексни здравни знания при дигитално общуване?

Подтеми:

Предаване на научни знания; знания за рисковете на здравето; знания за пандемичната криза; въвличане на обществото и пациентите; мениджмънт на фалшивата и заблуждаваща информация в дигиталната и околната среда по време на пандемия; справяне с дезинформацията, с лъжливата информация, конспирационните теории, слуховете; изграждане на доверие; справяне с колебливостта по отношение на ваксините; нови форми на комуникация; насърчаване на двустранната комуникация по проблемите на общественото здраве; комуникиране с политиците, здравните професионалисти, гражданите; здравна грамотност и дигитални общности и други въпроси.

[HW37 - Opening EUPHW in Bulgaria with an interview on BNRadio Horizon](#)

Вторник 18 май - New challenges in mental health

Основна тема: Новите предизвикателства в психичното здраве

Самотността и изолацията, предизвикани от COVID-19 и тяхното облекчаване отежняват

проблемите на психичното здраве в Европа. По какъв начин можем да изградим по-добри подкрепящи системи за помощ на тези, които имат нужда?

Подтеми - какви въпроси могат да се включат в този ден?

Влияние на пандемията върху изолираните, самотните, възрастните и старите хора, безработните, младите хора; злоупотреба с лекарства, наркомания; превенция на самоубийствата; 2021 обявена за Година на здравния и социалния работник; психологична подкрепа за работещите в здравеопазването (особено за жените); услуги за подкрепа на психичното здраве; психично здраве на децата и родителите (сериозно засегнато от COVID-19); психично здраве при лицата с хронични заболявания.

[HW76 - Impact of COVID 19 pandemic on child mental health in Bulgaria](#)

Четвъртък 20 май – All for one health

Четвъртък 20 май 2021

Основна тема: Всички заедно за по-добро здраве

Животните, растенията и хората споделят една и съща екосистема, което изисква различните сектори да работят заедно. По какъв начин може общността в областта на общественото здраве да си сътрудничи за постигане на здраве за всички?

Подтеми:

Климатичните промени; политики за устойчиво развитие и обезпечаване с храна; мултисекторни подходи за по-добро здраве; дефиницията на СЗО за „One health“; антимикробна резистентност; безопасност на храните; колаборация в областта на общественото здраве; културални различия

Дефиницията на СЗО за „One health“: това е подход за дизайн и прилагане на програми, политики, законодателство и изследвания, в които различни сектори комуникират и работят заедно за постигане на по-добри здравни резултати. Областите, в които е особено подходящ „One health“ подходът включват: безопасността на храните, контрола на зоонозите и борбата с множествената лекарствена резистентност.

[HW82 - Soil-transmitted helminthiasis and risks for regional environment](#)

Доц. Борислава Чакърова , МФ – Стара Загора

Date / theme: Thursday 20 May - All for one health

Time: 13h30 until 15h00 (GMT+01:00) Budapest (*organisers' local time*)
(*please check your equivalent timezone!*)

Event type: Lecture

Event format: Online only

Description: Soil-transmitted helminthiasis (STH) are among the most common infections worldwide. They are transmitted from eggs to human feces, which contaminate the soil in areas with poor sanitation. Due to a number of circumstances, there are real risks of changing natural habitats of STH, which makes vulnerable new human populations.

Петък 21 май - Leaving no one behind

Основна тема: Никой да не остане без грижи (Здраве за ранимите групи)

Пандемията има унищожителен ефект върху най-непривилегированите групи от населението, увеличавайки здравните неравенства. По какъв начин общественото здравеопазване може да защити най-ранимите?

Подтеми:

Здравни неравенства; раними групи – мигранти, етнически малцинства, бездомни хора, ниско платени работници; социална защита; (домашно) насилие над жените и децата; измерения на различията в здравето (напр. културални различия, различия по пол, религиозни вярвания, семеен статус, етнически различия, родителски статус, възраст, образования, физически и умствени способности, доход, сексуална ориентация, заетост, език, географско разположение); универсално здравно покритие, Световен ден за културални различия за диалог и развитие; недоверие към ваксините (тъй като понепривилегированите групи по-често не желаят да се ваксинират).

[HW59 - Impact of the COVID-19 epidemic in the Roma neighborhood](#)

Доц. Мариела Камбурова, ФОЗ - Плевен

- Date / theme:** **Friday 21 May - Leaving no one behind**
- Time:** 8h00 until 9h15 (GMT+02:00) Sofia (*organisers' local time*)
(*please check your equivalent timezone!*)
- Event type:** Lecture
- Event format:** Online only
- Description:** COVID-19 is becoming an indicator of inequality in societies. Due to the Difficult socio-economic situation, Roma in Bulgaria face a higher risk of suffering and death due to COVID-19 than general population. A segregated Roma community of about 20 000 people lives in the Nadezhda neighborhood in the town of Sliven. The aim of the event is to analyze the impact of the epidemic of COVID-19 and the anti-epidemic measures applied among the Roma community in Sliven district, Bulgaria.
